

Environmental Management ISO-14001: 2004

Environmental Management ISO-14001: 2015

What this means? – ISO:14001 specifies the requirements for an environmental management system that an organization can use to enhance its environmental performance. ISO:14001 is intended for use by an organization seeking to manage its environmental responsibilities in a systematic manner that contributes to the environmental pillar of sustainability.

ISO:14001 helps an organization achieve the intended outcomes of its environmental management system, which provide value for the environment, the organization itself and interested parties. Consistent with the organization's environmental policy, the intended outcomes of an environmental management system include:

- Enhancement of Environmental Performance
- Fulfilment of Compliance Obligations;
- Achievement of Environmental Objectives.

What does this mean for you? – ISO:14001 reassures customers who take an active interest in environmental performance that they are working with a company which promotes a shared environmental ethos and is proof that BKT are maintaining a forward thinking, environmentally aware organisation that fulfils its corporate social responsibility. The primary benefits that our customers will experience as a result of this particular accreditation are:

- Reduced Customer Unit Costs through on Site Energy Savings
- Products are Supplied from a Progressive Socially Responsible Source
- Customers know Rigorous & Efficient Environmental Management Systems are in Place during the Production Process
- Shows Regulatory Requirements are Met &/or Exceeded on a Consistent Basis at BKT
