

PEFC – Programme for the Endorsement of Forest Certification

PEFC – Programme for the Endorsement of Forest Certification

What this means? – PEFC is an international non-profit, non-governmental organisation dedicated to promoting Sustainable Forest Management (SFM) through independent third-party certification. PEFC works throughout the entire forest supply chain to promote good practice in the forest and to ensure that timber and non-timber forest products are produced with respect for the highest ecological, social and ethical standards. PEFC's distinctive 'green trees' logo make it a truly global brand and means customers and consumers are able to identify products from sustainably managed forest.

What does this mean for you? - Sustainable Forest Management certification assures that forests are managed in line with challenging environmental, social, and economic requirements – balancing people, planet and profit.

Chain of Custody certification tracks wood from sustainable sources to the final product. It demonstrates that each step of the supply chain is closely monitored through independent auditing to ensure that unsustainable sources are excluded. Certification is only awarded after independent third party audits have verified compliance with PEFC's globally recognized Sustainability Benchmarks. The PEFC Label is exclusively available on PEFC-certified products, enabling consumers to clearly recognize and distinguish products and packaging that are made from responsibly sourced raw materials. The primary benefits that our customers will experience as a result of this particular accreditation are:

- Materials Sourced from Sustainable Environmentally Friendly Sources
- Reduced Carbon Footprint
- BKT are a Trusted, Environmentally Conscious Supplier
- Fundamental Rights of the Workers in the Supply Chain are Protected
- Environmentally Responsible Products
